

### mau\_assumptions

---

#### Legend

- Logical – assumption starts affecting the assignment at the logical model stage
  - Normalisation – assumption starts affecting the assignment at the normalisation process
- 

#### General

- Logical
  - All attributes have mandatory input unless specifically state otherwise.
- Normalisation
  - Potential composite attributes are only broken down if specifically stated, otherwise are kept as simple attributes.

#### History

- Normalisation
  - Multiple artwork statuses can occur on the same day.

#### Exhibit

- Normalisation
  - A particular artwork can be displayed at more than one gallery on a given day.
  - A particular artwork can be displayed at the same gallery on more than one occasion.
  - A particular artwork cannot be requested then displayed by the same gallery more than once on a given day.
- Logical
  - exhibit\_end\_date is not mandatory as an exhibit can start without an end date specified

#### Gallery

- Logical
  - Open and close time of a gallery are set for usual operations. Inclusion for public holidays is out of scope for this assignment as operational dates were not provided. Therefore, this attribute is not mandatory to record.
